Why are these idiots  
worshipping the sun?

They need to  
get with  
the program!

Can you explain it, sir?

What?

Why the sun goes up  
and down everyday?

What a stupid question!  
Of course I can

It's because...  
well you know when...

Uhh...

I mean... how do you know the Sun won't explode and kill us all?
